Narrative Explanation, if needed

Euthanasia inspection today. Scarlett Langley is in attendance. This facility has veterinarian Dr. R Cole Younger perform their euthanasia. He as well brings in his drugs that he uses. The only exception to this is the 10cc of Euthasol that is kept on the premises for any type of emergency. There is a controlled substance log that appropriately accompanies this drug and its usage and it is stored as required by law. The euthanasia manual is complete with the updated HSUS and AVMA guidelines being printed up at this time. All paperwork as it pertains to the euthanasia process and dispositions of animals, is in compliance.

A new addition has been built on to the back of the building. This area is being utilized a euthanasia suite.

No animals were euthanized at the time of this inspection.

This inspection is approved.
