Cont

Item Number	Explanation of Inadequacy (circled items above) And Recommendation For Compliance	Date Corrections Must Be Completed
	Items To Address:	
	1) Structure + Repair - Housing - The Building - The dogs have reached through the Kennel Panels and scratched holes in the FRP board and insulation. These areas must addressed by replacing the FRP board or another acceptable material - one that is impervious to moisture and that dogs cannot damage. All door facings and doors that are scratched and damaged must be addressed - even personal dog areas.	
	2) Ventilation + Temperature - Large Kennel area needs a thermometer - 50°-85° is acceptable for indoor facilities.	
	7) Primary Enclosures - Kennels, Crates, Outdoor fencing, gravel, astro turf - Indoor Kennels with damaged wire - Replace damaged Panels. Plastic Crates - Chewed plastic crates - Replace crates. Outdoor Play yard fencing - All damaged chain link must be repaired or replaced if not fixable - This includes fencing on gates. Gravel - Bare dirt is showing - Add more gravel, 6" required. Astro Turf - Worn + Torn - Owner stated new material has already been ordered.	
	12) Odors - Sanitation - Upon entering building urine odors are noted. There was no fecal matter or urine noted but the odors were there. Owner needs to examine "hidden" areas that may retain odors.	
	15) Equipment - Chewed plastic water buckets must be replaced - hard to sanitize properly.
