The Pets Pal Inn	Christine Ponton	Wilmington	NC

Narrative Explanation, continued

Follow-up inspection from 10/2/14.

Items corrected:

1. The damaged wall in the outdoor kennel area - right side, last kennel - has been repaired and the work is acceptable. This was the area that a snake was noted on the last inspection. It does not appear that any reptile could hide in that area now - it is well sealed.

2. The empty spaces at the ends of all 4 kennel rows are found today much cleaner. There were no spiders or spider webs noted today.

Comments:

Since the last inspection all of the railroad cross ties have been removed from the gravel walkway area. Kennel management was advised today to apply a water sealer on the wood fencing in the walkway area. I was advised that occasionally a dog is allowed to exercise in the walkway area. By making the interior side of the fence impervious to moisture the facility will be in compliance.

The winter maintenance of the grass exercise yards was discussed as well today. Today the yards are in good condition but with cold weather the present warm weather grasses will be dying back so advised to seed the yards with a winter grass to keep from having bare spots. Also reminded the use of portable fencing around bare dirt areas is helpful.

Continue to make repairs when needed.
