New Hanover Humane Society	Martha Raynor - Manager	Wilmington	NC

Narrative Explanation

Noted this facility does not transport animals off site. A veterinarian is on site to address the veterinary care and all adoptions are from this site.

Annual inspection performed today.

Items to correct:

.0204 Primary Enclosures / Surfaces Impervious To Moisture - Cat Room - Re-seal the raised resting surfaces that have become damaged. Make sure all surfaces in the cat room stay sealed as the cats are allowed to use this room as an exercise area.

19A-32.1 (i) Release animal to person, record of approved government photo ID - Make a photo copy of the ID of the person the animal is released to.

Comments:

Shelter manager advised there has been a ceiling leak in the indoor kennel room. The roof has been repaired but the ceiling has a damaged area that is on schedule to be replaced. The shelter plans to address this damaged area this fall when the dogs can be housed in the outdoor section of the kennels (cooler weather). This is acceptable. Discussed with manager there is some rust showing on the chain link and galvanized fence poles. At present there appears to be no weakness in the fencing but advised to look into cleaning this rust and painting to extend the life of the fencing. At this time the fencing is in acceptable condition. The yards have a good carpet of grass. Advised that pest control comes monthly to address all insect / rodent issues (ant trail noted on the walkway).

Shelter was clean and odor free. No signs of untreated illness or injury noted.

Follow-up inspection in 30 calendar days - 9/09/2013
