Item Number	Explanation of Inadequacy (circled items above) And Recommendation For Compliance	Date Corrections Must Be Completed
	60 Calendar Days Follow-up	
	Items Addressed Since 11/2/09 Inspection:	
	13) Sanitation - Indoor day care room - The walls and floors are clean today.	
	Comments on the unaddressed items: 1), 7)	
	Owner has not been able to get any assistance from the company that installed her indoor day care floor. In order to be compliant with the Animal Welfare regulations the owner is going to remove 3 tiles from the area of flooring that is damaged to make that area square and apply an appropriate type paint on the floor. This will be acceptable for that area.	
	The owner has not addressed the outdoor play yard gravel issue due to the holiday busy season. She has scheduled for a bobcat to come to the facility on 1/8/10 to remove all of the old sand/gravel mixture and bring in new gravel that week.	
	The issue of the look of the metal doors in the indoor daycare room was discussed with the owner today. The appearance of the doors is not good due to the general wear caused by the dogs. This does not reflect on the sanitation or safety for the dogs. A material that is resistant to moisture and the general wear that is encountered at this type facility was discussed. The door leading to the outdoor yard does need attention as the bottom hinge fits poorly and there is a large crack under the door that allows heat to escape.	
	The owner understands that addressing the floor and outdoor play yard is a priority and to continue to perform routine maintenance on her building.	
	Re-Inspect in 14 Calendar days.
