Narrative Explanation, continued

I performed a "Random" inspection at this facility today.

I noted the following items need to be corrected:

1. .0201 Facilities / Housing in Sound Repair - I noted there is torn linoleum at the entrance of the rest room / storage room that needs to be replaced. I also noted in this same room a piece of molding near the storage room door needs to be replaced as it is broken. This section of molding should be replaced and repainted. Address the torn linoleum and broken molding in this room.

Comments:

I noted when requesting records the manager had to search in multiple locations to retrieve the requested records. The manager advised he has an assistant who is responsible for keeping the records in order and up to date. I advised the manager to work closely with the assistant and make sure they understand how important this task is.

I noted the outside drain area is being kept open and clean, the facility was noted clean and odor free. I did note some of the krunda bed material is badly chewed. I advised the manager not to use these and he stated at that time they have material ordered and will be making new beds. Remember not to use the damaged beds. I noted improvement in keeping the metal cages painted....continue to keep these painted.

This facility has 30 calendar days to correct the identified items. I will return at some point in time after the 30 days for a re inspection of this facility.
