Narrative Explanation, if needed

Follow-up inspection from 8/22/13.

Items corrected:

1. Cat room - 8 chewed resting platforms have been replaced with platforms made of all stainless steel. Owner replaced all of the platforms. All of the cat condos have been repainted.

2. Outdoor k-9 areas - the rusted poles and elbows that were in bad condition on the 8/22/13 inspection have been replaced.

Narrative Explanation, continued

3. Building C - The rusted areas on the metal doors have been repainted.

New items to be corrected:

.0204 Primary Enclosures / Sound Repair -

Outdoor kennels between building B & C - Replace the rusted corner on gate # 6 in pen #6, replace the rusted bottom fence pole in pen # 5, replace the rusted pole on the gate in pen # 4.

Building C - although the metal doors were repainted since the 8/22/13 inspection, they are now showing rust again. Owner needs to either keep these doors repainted (paint again) or consider replacing them with another material that is compliant with the Animal Welfare Regulations.

Comments:

Since the last inspection on 8/22/13, the owner has opened an outdoor day care kennel. There are 22 kennels on concrete with drainage and a shelter that covers all the kennels. These are only used for day care dogs - no overnight dogs are housed there.

The transportation bus was inspected today. Remember to clean and disinfect the crates between use and make sure to replace any crates if they become damaged.

Follow- up inspection in 8 weeks 1/29/14
