Narrative Explanation, continued

Follow-up inspection from 11/12/14

Items corrected:

1. Isolation Room - The floor covering has been installed and shower board has been installed on the walls. If this room is used to isolate a sick dog, it is understood the dog will be contained in a crate. Work is acceptable,

2. Perimeter Fence - The white vinyl perimeter fence is now completely installed. Work is acceptable.

3. Three outdoor exercise runs - The owner has attached a plastic (PVC) pipe across the bottom of the run gates so there is no gap for a dog to try to go under. Work is acceptable.

4. Three outdoor exercise runs - The owner has installed a tarp over these 3 runs to provide rain and sun protection. Her future plan is to build a more permanent cover over these runs. Tarps are acceptable but a more permanent cover or frame for tarps would be more user friendly.

5. Records - The owner now has upgraded her owner information sheet to include the owners' address. A sign in / sign out sheet has been created for the dog day care customers.

6. Outdoor Exercise Yard - The owner has installed artificial turf in the exercise yard and runs. Work is acceptable.

Comments:

Three dogs are being boarded today.

Kennels, yards and facility are clean and odor free.

Records meet the Animal Welfare requirements.

Temperatures are in range in the indoor areas (50*F-85*F).
