Narrative Explanation, continued

I performed a "follow-up" inspection at this facility.

I noted the following corrections have been made:

1. .0201 Facilities / Housing in Sound Repair - I noted the torn linoleum at the entrance of the rest room / storage room has been replaced and the missing piece of molding in the room has been replaced. The work is noted acceptable.

Comments:

I noted today the records are in very good order with no problems noted and the good work is appreciated.

I was advised and showed by the manager today that work is being done to improve the drainage at the back of the outdoor exercise areas. Trenches have been dug and gravel installed to aide in removing the water from washing these areas daily. I advised the manager this looks very good but to be sure any hair or small pieces of fecal material do not build up in the gravel or that will be considered a sanitation problem.

I also noted the metal cages are being kept painted, the laundry room is very clean and organized, the kennels are clean and in good repair at this time.

No inadequaciess were noted today.
