Narrative Explanation, continued

I performed a follow up inspection at this facility today.

I noted from the last inspection on 4/6/16 that item .0101 Origin of Cats is still not acceptable. I noted today that 1 of the 2 cats being housed did not have acceptable information as to the origin of the cat. The cat was noted as an Orange Tabby, female adult named "Miya". The cage card stated the cat came from the Arlington West Apts. The information on the cage card needed to have been more specific as to who the cat belonged to (full contact information) and exactly where in the Arlington West Apts. the cat was taken from. The cat adoption group must understand this information has to be available for the inspector to view. It is acceptable to keep this information in the cat record notebook so it is not seen by the public or future adopter but it MUST be made available for the inspector. IF the cat is truly a stray then it will be acceptable to note as the origin the street / highway name / nearest known landmark but all other cats must have the name and contact information for where they originated from.

This facility has 7 days to correct item .0101 Origin of Cats. I will return at some point in time after the 7 day period for a re inspection of this facility.
