Narrative Explanation, if needed

follow-up inspection from 3/11/14.

Items Corrected:

1. Chain link kennels - the FRP board and tarps used in the past to prevent nose to nose contact have been replaced with extruded plastic sheeting. Acceptable.

2. Concrete floor outdoor exercise pen - the cracks in the concrete have now been sealed. This enclosure has had extra posts installed on the outside of the wire to make the pen more secure. Acceptable. Continued.....

Narrative Explanation, continued

4. Carport exercise yard - the owner has taken the fence down for this area. Dogs are either hand walked or allowed in the concrete exercise yard. This area contained the facility septic system which has been upgraded since the last inspection.

5. Carport exercise area - the mulch has been replaced with gravel. Acceptable. Advise owner to remove center rug unless it can fit into the washer and dryer. (If this area is just used for a personnel break area and not dog exercise, the rug is not an issue).

Comments:

Since the last inspection the owner has upgraded the septic system, remodeled the kennel tub area, improved the kennel room lighting. With each visit it is noted the owner is working hard making improvements on an older facility.

Remember to keep replacing the plastic dog beds when chewed or make smooth the chewed edges if possible.

Continue to keep the wire crates well painted so there is no rust.

No inadequacies noted on this inspection.
