Narrative Explanation, if needed

Follow up inspection from 8/12/13. Items Corrected:

1. Laundry Room - the dryer hose has been re-attached, the room cleaned of hair and dust, a shelf installed to store towels / blankets and the room has been re-organized.

No other items have been corrected. Was advised today that the previous manager who was responsible for addressing the inadequate items on the 8/12/13 inspection is no longer employed at the kennel. The new manager stated that he was not aware of what needed to be corrected but would see that all items are corrected

Tail Waggin' Ranch	Phil Bailey	Swansboro	NC

Narrative Explanation, continued

within the time frame given - 2 weeks - 9/30/12.

Old items (from the 8/12/12 inspection) to be corrected:

.0201 Facilities / Housing in Sound Repair - Fix the hole in the drywall beside the door entering the kennel area damaged by the chain link gate. After the area on the wall is fixed, install a protective plate to prevent that from happening again.

.0204 Primary Enclosures / Surface impervious to moisture - paint with non porous paint all the accessories (boards) used on top of the kennels. These items must be able to be cleaned and sanitized.

.0204 First outdoor exercise yard - fix the outdoor turf so that it does not move out of position (it wrinkles at the end of the yard).

Cage card clip boards are made of pressed board and many of these are chewed - replace all pressed board cage card boards with hard plastic or other material that is impervious to moisture.

.0201 Food storage / an open bag of dry food was noted - store all open bags of dry food /treats in a closed container.

Comments: Discussed with manager the need to keep the metal cages well painted. The area behind the outdoor exercise yards was found with feces that had not been removed - this was corrected during the inspection. Make sure all feces is scooped and removed from the outdoor yards at least 2 times each day. Strongly advised manager to re-organize the storage containers in the laundry room so they are not close to the hot water heater.

Follow-up inspection in 14 calendar days - 9/30/13.
