Narrative Explanation, if needed

I performed a follow-up inspection at this facility today.

I noted the following items have been corrected from the 6/23/15 random inspection:

1. .0207 Sanitation / Grounds - I noted the grass between the building and the chain link fence has been cut and the overhanging weeds on the back fence have been trimmed.

2. .0204 Primary Enclosures / Open wire crate - This crate has been disassembled - no longer in use.

Continued on page 4.....

Narrative Explanation, continued

I noted the following items are still to be corrected / fixed:

1. .0201 Facilities / Housing in Sound Repair - When exiting the large dog kennel room area, the molding on the left side of the exit door has been damaged from dog toe nails. The owner needs to re seal this molding. I would suggest the owner cover or replace this molding with a product that the dogs do not repeatedly keep damaging.

2. .0204 Primary Enclosures / Sound Repair - B16 - the gate today is missing. The owner was not on site to advise if the chain link on this gate is being replaced.

New Items to be Corrected:

1. .0204 Primary Enclosures / Cross Contamination - I noted today that on all rows (A - F) there is missing caulking around the bottom of the enclosures. The caulking prevents urine and mop water from flowing from one kennel to another. Re caulk all enclosures.

I will conduct a follow up inspection in no less than 30 calendar days unless notified by the owner that the facility is ready for inspection. (8/24/15)
