Item Number	Explanation of Inadequacy (circled items above) And Recommendation For Compliance	Date Corrections Must Be Completed
	Owner has re-located to a new building. Inspection today is a Random Courtsey to look at building w/owner and discuss the necessary corrections to be made to come into compliance for boarding and day care. This is an older building that has concrete floors and some block walls.	
	Indoor day care area - Floors must be re-sealed. Chain Link fencing will be installed to contain daycare dogs. A gate will be installed as a secondary line from escape.	
	The entrance area will be check in and supplies for sale.	
	Isolation Area - building has 2 bathrooms - suggested designating one as an isolation area. Make all lights are working.	
	Garage Area - Plans are to drop the ceiling, insulate the walls + ceiling, seal the concrete floors. This would be the boarding area. Enclosures will be black painted wire crates (has very large sizes). This area must have adequate heat and A/C. This garage area will also contain the washer/dryer and tubs for bathing dogs. A door is planned for the back of this into the backyard. Owner plans to install a 5 foot chain link fence and use this as a supervised exercise yard. Footing has been discussed - gravel (6 inches), concrete or grass. Very Good grass is now in that area - just need to mow and maintain. Be sure area is cleaned of any injurious materials and fire ants.	
	The back and part of the front of the outside building needs to be finished - owner plans to install vinyl siding.	
	No animals are being boarded now and owner understands all of the above items need to be addressed before she can be approved to board. Owner plans to have the above completed before mid-June '08.
