

NORTH CAROLINA PEST MANAGEMENT ASSOCIATION

64TH

ANNUAL PEST CONTROL TECHNICIANS' SCHOOL

Sheraton Imperial Hotel
and Convention Center
Durham, North Carolina

JAN 27 -30
2014

North Carolina
**Pest
Management**
ASSOCIATION

IN COOPERATION WITH THE NORTH CAROLINA STATE UNIVERSITY DEPARTMENT OF ENTOMOLOGY

The North Carolina Pest Management Association, in cooperation with the North Carolina State University Department of Entomology, is pleased to present the 64th Annual Pest Control Technicians' School. The program was designed for pest control technicians, their suppliers, nuisance wildlife control agents and others closely involved with pest control operations. The

school's general program offers phase training with the opportunity to earn continuing certification units and information for technicians, owners and managers on the latest developments in pest control. This year's guest speakers offer a wealth of knowledge to share based on both academic and practical experience. We look forward to seeing you this year in Durham!

WDIR ACCREDITED TRAINING PROGRAM Monday, Jan. 27, 2014, 8 am - 5 pm

NCPMA has put together a state-of-the-art training program created specifically for termite inspection professionals in North Carolina. The program is designed to promote professionalism in the pest control industry, provide a specialized training option for all pest management professionals, standardize inspections throughout the state and provide a benchmark for all wood-destroying insect inspections.

The accredited WDIR Inspector training program is an eight-hour training course and includes a comprehensive manual written specifically for North Carolina. Participants will earn six CCUs in W-Phase toward state recertification.

You must submit an exam application to the Structural Pest Control & Pesticide Division by Jan. 10, 2014, to be eligible for these examinations on Jan. 30, 2014. There is a \$25 fee per exam, which will be collected at the time of the examination. There is no charge for the core exam.

The pre-registration form will be sent with the study materials.

After completing the course, candidates must pass a comprehensive examination. Successful candidates are then issued a personalized stamp and accredited inspector number. It is important to know that the individual, not the company, holds the accreditation. When a WDIR is issued, an accredited inspector will stamp the report with their seal and accreditation number as a part of the process. Only the accredited inspector may use the seal and the seal cannot be used on an inspection report not performed by that inspector.

Qualifications for WDIR Course on Monday, Jan. 27, 2014, 8 am - 5 pm

- Be a current W-Phase licensee in the state of North Carolina, OR
- Be a W-Phase certified applicator in North Carolina with six (6) months experience or at least 25 WDIR inspections, OR
- Be a Registered Technician card holder in North Carolina with 12 months experience or at least 50 WDIR inspections

****Verification of the WDIR completions must be provided by a written affidavit signed by the company owner/ manager****

NCPMA Member? Yes No

Members: First three NCPMA members from same company/branch address-\$199 each

Fourth participant and beyond-\$90 each

Non-members: \$399 each

General Information PHYSICAL MAILING ADDRESS must be included to receive WDIR study information.

WDIR AFFIDAVIT (Must be completed for all WDIR registrants)

All applicants must meet minimum qualifications to be eligible to take the WDIR Inspector Training Course and examination.

- As a certified applicator (CA), candidates must have a least six months experience in the pest control industry or have performed at least 25 WDIR inspections.
- As a registered technician (RT), candidates must have at least 12 months experiences in the pest control industry or have performed at least 50 WDIR inspections.
- Candidates are NOT eligible to take the examination nor can they remain accredited if they have three or more deviations during a 12 month period.

Verification of eligibility must be certified by the owner or manager of the candidate's current employing company. Falsification of qualifications can result in forfeiture of training fees and loss of accredited inspector status.

Name: _____ CA RT L (circle one)

As owner or manager of the current employing company, I provide verification the candidate(s) listed meet the minimum qualifications as outlined above.

Signature: _____ Date: _____

REMINDER: To be eligible for Structural Certification Exams, applicants MUST have completed the Registered Technician School or approved equivalent training prior to the date of the certification examination. Credit will NOT be given for certification training attendance. Applicants who have not completed the Registered Technician School will not be permitted to take the certification exams.

PESTICIDE CERTIFICATION PROGRAM

This program is for technicians preparing to take the Pesticide Certification and Licensing Exams

PESTICIDE CERTIFICATION PROGRAM (CONTINUED)

You must submit an exam application to the Structural Pest Control & Pesticide Division by January 10, 2014, to be eligible for these examinations on January 30, 2014. There is a \$25 fee per exam, which will be collected at the time of the examination. There is no charge for the core exam.

The pre-registration form will be sent with the study materials (additional fee), or you can download it from www.ncagr.com/SPCAP/structural/pdf/preexamform.pdf if you do not need study materials mailed.

REMINDER: To be eligible for Structural Certification Exams, applications MUST have completed the Registered Technician School or approved equivalent training prior to the date of the certification examination. Credit will NOT be given for certification training attendance. Applicants who have not completed the Registered Technician School will not be permitted to take the certification exams.

Structural Pest Control & Pesticide Division, 1090 Mail Service Center, Raleigh, NC 27699-1090. Phone 919.733.6100, Fax 919.733.0633.

Continuing Education

Continuing Certification Units (CCUs) are awarded for attendance at sessions covering certain subject matter taught at the school pending approval by the Structural Pest Control & Pesticide Division. These units may be used to satisfy pesticide re-certification requirements and are awarded at the rate of one CCU for each 50 minutes of approved instruction. A permanent record of your CCU attainment is maintained by the Structural Pest Control & Pesticide Division, NCDA, 1090 Mail Service Center, Raleigh, NC 27699-1090. An annual update of your CCU record will be included without charge with your certification or license renewal forms. Extra copies may be ordered at an additional charge. Specify your Social Security number when ordering. In addition, you can verify your credits earned on the SPCD Website at: www.ncagr.gov/aspzine/str-pest/Rccert/RTsearch.asp

While licensees or Certified Applicators (CA) are certified for a five-year period, CCUs cannot be earned all at one time. Licensees and non-commercial applicators must earn some credit in at least four of the five years of the re-certification period. Commercial-certified applicators must earn credits in at least three of the five years. At the end of the five years, persons certified in one phase must have earned at least 10 CCUs, those with two phases, 15, and those with three phases, 20. At least five CCUs must be solely applicable to each phase in which certified. As many as five CCUs in the General Category may be counted, but are not required. Excess CCUs may not be carried forward to the next certification period.
