Narrative Explanation

Annual inspection performed today, facility is clean and odor free at time of inspection with no apparent signs of illness or injury noted. Facility is currently housing 5 foster dogs for 2 different rescues, records for these K9's are on site and to AWA regulation. I have discussed with staff member (Robert), the 9 or less ruling for private shelter/foster animals.

Previous inspection on 6-23-15 noted inadequate drainage (0201), and damage to tile floor in cat room (0202).

TODAY'S INSPECTION:

Cat room}

0202- Surfaces impervious to moisture is not acceptable due to damaged sealant on tile floors, (noted on 6-23-15, 12-17-14). Facility owner has contacted the landlord to complete this work, this room is not being used until the damage has been fixed.

OUTDOOR ELIMINATION YARDS (left side):

0203- I viewed bare dirt today in the outdoor left enclosures, add gravel and maintain at a depth of 6 inches.

Drains are clean and free of debris today, facility is well maintained and the animals housed here appear healthy & happy.
