Narrative Explanation, if needed

Noted on today's inspection that the most updated versions of the AVMA and HSUS euthanasia guidelines are included in the shelter's euthanasia manual.

There were no animals to be euthanized during this inspection.

Since the last euthanasia inspection the shelter has purchased a new incinerator. During the time the old incinerator was inoperable the shelter used the landfill area for burial.

Records and manual were examined and found in compliance.
