Narrative Explanation, if needed

Comments: There is some flaking of the painted concrete floors. The manager of the shelter is being proactive in addressing this issue. A concrete flooring company has been hired to strip the first layer of concrete off and re-finish all of the floors inside the building.

Today's inspection found the shelter clean and in good repair. Records were examined and found in compliance.

Continue to replace the plastic dog houses as needed or to address any chewed areas as was discussed today.

Temperatures were in range in all indoor areas. There were no signs of untreated illness or injury noted.

Transportation standards have been discussed on previous inspections.
