## Narrative Explanation

This is a new licensing inspection today.

The following are corrected items from the 4/2/14 courtesy inspection:

1. 6 inches + of riverrock gravel has been installed in 4 pens plus the isolation pen.

2. A gravel retaining board has been installed "outside" the kennels.

3. Gravel now lines the drain areas between the pens.

4. Since no dogs have been housed since the courtesy inspection, there are no current records to be inspected. On previous visits the records were reviewed and noted as being complete. Current records will be examined on the next inspection.

5.The surrounding yard that will be used for exercise now has a good grass cover.

6. An isolation kennel with an isolation sign has been created.

7. All wood resting areas have been removed and replaced with acceptable non wood resting beds.

8. There are 2 plastic igloos in each kennel. The kennels are large enough to easily house 2 dogs.

9. At present, all the chain link is in good condition.

Other items inspected today included the access to hot and cold water, refrigeration, food / water pan cleaning, keeping the gravel and yards clean, food storage, the transportation vehicle and reviewing the requirements of Senate Bill 626.

All areas are in acceptable condition and this facility is ready to receive their Private Shelter License and may start housing dogs for adoption.
