Narrative Explanation, if needed

Items to be addressed:

.0203 Outdoor Facilities / Housing, 1 per dog - One house shall be available for each dog within each enclosure except for a mother and its unweaned offspring. One run housed 4 weaned dogs with 2 dog houses - need to separate so there is one house per weaned dog. It is acceptable to have more than one house in one run if there is adequate floor space.

.0205 Feeding / 1 Bowl per adult dog - One run housed 3 weaned dogs and 2 food bowls. There shall be 1 bowl

Narrative Explanation, continued

per weaned dog.

Comments: Today's inspection began at 1:15pm. The inside kennel temperature was 77.3*F. Since the last inspection (4/23,12) the inside shelter floors have been repainted and the inside kennels re-arranged. The cat housing rooms have also been re-arranged. No problems were noted with the new arrangements. The drain area is much easier to clean with the new arrangement in the inside kennel room.

The dogs in the outdoor kennel runs were observed at 1:50pm today. The afternoon was bright and sunny, the temperature was 92.3*F under the kennel shelter. There were no areas of the kennel receiving direct sunshine. All dogs were provided clean water and none were noted as being in heat distress. Many of the dogs appeared comfortable lying on the concrete sleeping. A large industrial fan was on site and running to provide additional air circulation. The benefit of installing industrial ceiling fans was discussed with the director. Noted, the fans are not an AWS requirement. This outdoor facility has a large shelter that covers all the kennels plus on overhang that gives added weather protection to the dogs. All areas of the facility were clean and in good repair. Records were in compliance.

Follow-up in items .0203 and .0205 will be in 30 calendar days.
