Comments:

At the time of opening this new facility, there were 6 indoor/outdoor runs that the outdoor part could not be completed due to funding. Today, 3 of the runs are now complete except for finishing the tops. The chain link is of good quality and the runs will be in compliance.

Records were reviewed and found adequate. Discussed the importance of having the origin documented.

Advised manager to keep the doors in good shape that the dogs have access to - discussed placing diamond plate over these areas if maintaining paint becomes a problem.

I was advised that the area around the back door where the stucco has come off is already on schedule to be redone.

Cleaning was on going at the time of today's inspection.
