Pups Play and Stay	Thomas Donatone	Wilmington	NC

Narrative Explanation, continued

I performed an Annual inspection at this facility today.

The following items are to be addressed:

1. .0202 Indoor Facilities / Surface Impervious to Moisture:

I noted in Room A there are 8 shelf support moldings that are chewed and need replacing. In Room A both window sill moldings need to be replace, resealed and re painted.

I noted in Room B there was 1 chewed shelf support that needs to be replaced and repainted.

I noted in Room C there is wall molding at the double doors and hall door that needs to be replaced (it is missing). There is 1 chewed shelf support molding that needs to be replaced.

2. .0203 Outdoor Facilities / Surface Impervious to Moisture:

I noted on the outside wall of Room B there are areas on the wall and window casing that need to be re painted.

3. .0204 Primary Enclosures / Surface Impervious to Moisture:

I noted today that the chain link on the outside kennels has become rusted. The owner has the option of either replacing the rusted chain link or cleaning away the rust and re painting the chain link. The identified kennels are the even number kennels on the back side (20 kennels) and odd number kennels at the ends of the front side (4 kennels, 2 at each end).

Following up on the inspection includes:

30 calendar days (8/13/15) on item #'s 1 & 2.

60 calendar days (9/14/15) on 1/2 of the rusted kennels to be addressed.

90 calendar days (10/14/15) for the entire rusted kennels to be addressed.
