Item Number	Explanation of Inadequacy (circled items above) And Recommendation For Compliance	Date Corrections Must Be Completed
	Follow-up from 5-7-08	
	Comments from 5-7-08 - Items that have been addressed:	
	6) Water drainage problem at left back of outside Kennel has been corrected.	
	1) Unloading area - One outside door frame that was damaged has been corrected.	
	3) Cat Room - all lights are working today.	
	7) Run D-5 door - Chain link has been repaired.	
	Items still to be addressed:	
	6) Cross Contamination at outside Kennels. At the last inspection the Sanitation Protocol was discussed. It was understood the shelter was planning to set up Chain link runs or pens in the exercise yard to temporirly house the outside dogs in while their runs were being cleaned. At this point there is no way to prevent cross contamination in the outside runs.	
	7) Outside runs - There still needs to be a wire top installed over the runs to prevent climbing dogs from escaping.	
	7) Outside runs - Runs # OK5 + #OK9 have holes in the chain link - doors - that need repairing.	
	11) Waste Disposal - Unloading area - fence is now taken down. Area still needs a thorough cleaning. Trash is stored in front of the shelter - needs to be hauled to trash site.	
	7) Cat Cages - Cat cages housing 2 or more cats or kittens shall have an elevated resting surface.	
	11) Waste Disposal - Cat Room - Shall provide 1 litter pan per 3 cats.	
	8) 10 Space - Outside Kennels - Shall provide 1 house per dog. Today there were 9 dogs outside, 4 runs occupied. There was room for each dog to have a house if management had arranged it.

Item Number	Explanation of Inadequacy (circled items above) And Recommendation For Compliance	Date Corrections Must Be Completed
19)	It was observed today adult dog, puppy and cat food was mixed together in one storage can and being fed to any age or size dog. Feed is to be size and age specific.	
31)	Cat Room - Isolation - sneezing and coughing was noted in several cats. Cats are on meds but not being recording.	
	Temperature in Main Kennel was 70° at 9:30 Am.	
	Remember to monitor outside dogs - extreme temperatures - Keep water available at all times.	
	Re-Inspect in 2 wks.
