Item Number	Explanation of Inadequacy (circled items above) And Recommendation For Compliance	Date Corrections Must Be Completed
	Follow-up from 1-18-08.	
	All inadequacies have been addressed and the look of this shelter is remarkable! Very Pleased with all the work that has been done!	
	Comments: (From 1-18-08 report)	
	1) Kennel & isolation doors have been painted and Kick plates installed - Good.	
	3) Lighting - dogs & cats have the required diurnal lighting (12 hours) - Good.	
	4) Painting - The inside of the shelter has been painted and looks 100% better.	
	7) Wire patrol - damaged wire has been repaired.	
	12) Upon entering shelter today, there was no odor noticed. - Good.	
	11) Waste disposal in outside yard looks much better. Remember twice daily clean up.	
	17) Food Prep / Laundry area - This area has been cleaned and painted and the hole in the wall repaired	
	18) Grounds - the grounds look much better today - old junk bicycles, fan, etc. has been cleaned up. - Good.	
	20) The food is stored properly today - Remember not to store bags directly on the floor.	
	21) The Condition of the shelter today shows personnel are doing a good job.	
	23) All dogs & cats showed they had been attented to today at 1:30pm - Good.	
	2) The thermometer had been moved to a better location and the reading was 64° at 1:30pm - Good.	
	1) The Kennel window screens that were torn have been replaced and they plan to install lattice work over the screen for protection and still have air flow when AC is not needed.	
	All improvements have been noted. A shed has been built over the unused outside pens since 1-18-08. Work on the pens has not begun yet. Remember to install a top to prevent climbers from escape and suggest using a heavier gauge smaller diameter wire when designing runs. Also remember drainage around this must be addressed. This report is approved on the existing shelter not including the remodeling project outside.	
	Good Job!
