Narrative Explanation, if needed

Follow up inspection today. Corrections from previous inspection are as follows. The incomplete paperwork that was found has all been resolved. They are aware of the importance of the paperwork and how it must be handled. The shed next to the kennels has been fitted with a shelf to store bowls, canned food items and cleaning supplies. John Nelson, Director of Public Works is in attendance. He will begin work on the cross contamination barrier between the 2 kennels. The dog houses have been elevated up from the concrete. The painting and repair to the kennel fencing has been completed. The weeds and vines have been removed from the area as well. All in all they have much improved the conditions to this holding facility. I will return on random checks to see that they remain in compliance.
