Narrative Explanation, if needed

Follow up inspection done today. Volunteer Coordinator Katie Benson and Kevin Lancaster Head of Care Ops are in attendance. Items in need of correction from previous inspection as follows. 0202> The inside dog kennel areas are being addressed. Cracks are being filled and sealed. Discussions are on going with the board members regarding possible installation of new kennels. Wooden door frames have been repaired. 0205> Rusty dog feeders that are attached to the kennel gate doors remain intact. However, the staff is utilizing the stainless steel bowls and buckets. Feeders will be removed. 0201> The cat palace ceiling vents/registers have been provided along with new air filters. Light fixture has been purchased. 0207> Gravel for drainage purposes to the puppy play area and gravel for the replenishing of the general dog play yard area is in progress. 0204> Paint and sealant products for the outside dog kennel runs is being researched with implementation to begin shortly. The cracks in these areas

Narrative Explanation, continued

are being filled prior to the repainting. 0204> Back play yard area issues are in the process of rectifying. Plans to fill holes and bring in gravel to the bare areas is in progress. The electrical box unit that is free standing and the small one on the building are being encased to prevent dogs access. Someone has been retained to do work to the fencing slats that run the length of the building. This will be blocked off so that the dogs have no access. Renovation estimates for the back outside quarantine kennel area are being done. No dogs are housed there. 0207> Storage barn is free from rodent droppings. Some reorganizing has been done. All animals on the premises appear happy, healthy and injury free. I am satisfied at the willingness and concern this staff has at making all these corrections. These efforts will be ongoing as some of these required changes are large projects. I will follow up in or around 45 days to check on progress.
