Narrative Explanation, if needed

Follow up inspection done today. Corrected items as follows. 0207> Outside back play areas are in progress. The right side as you exit the building, is full grass now. The exception to this is a area approx. 5 ft. by 3ft. that remains bare. Owner will be implementing concrete pavers to cover. The left side area which has the shelter with bare area beneath, remains unchanged at this time. Owner has made the decision to provide pea gravel here. This is to begin shortly. All wooden posts throughout the outside runs and supporting the shelter area are in progress of being painted/sealed with a vinyl based type paint thus making them impervious to moisture. Projects are coming along nicely. This facility is odor free and well maintained. No feces noted in yards. I have no new items of concern at this time. All animals appear happy and healthy.
