Narrative Explanation

Follow up inspection done today. Corrected items as follows. 0204> Dog kennels are a work in progress. The resealing of all cracks with in the kennel walls is in progress. Guillotine doors have been either repaired, replaced or removed. Several of the rusted kennel gates and fencing that were showing moderate amounts of rust are completed. Staff is continuing this and believes to be completed next week. Kennel tops are clean and clear from clutter. Play yard remains with established grass and dogs do not have access to trees. New items of concern as follows. Known to staff as Back Room Kennels. 0201> Doors that enter and exit this area require a repainting/ resealing, gap where door meets floor needs to be corrected and concrete step threshold will need to be sealed. Known to staff as Sink Room. Threshold needs rewrapped. Light in this room needs to be looked at. Wont stay on when switch is flipped. Known to staff as Feed Room. This room is adjacent to the dog kennels. It's circumference needs to be addressed where the wall meets the floor with some type of filler and then the floor as well will all need to be resealed. Known to staff as Inside Cages. 0204> Considerable wear is evident in these cages. These primary enclosures are of concrete block walls and cement floors. Cracks need to be filled, peeling paint removed and then repainting and resealing. Wooden thresholds have been previously wrapped. However, noted several jagged edges and wear. Suggest a good rewrap be done. Wire kennel /cage doors require a good wire patrol to be done periodically and that they repair as soon as noted. Also need to address the rust issue on these doors with a repaint/reseal. Dog Kennels. 0207> The back exit door to this building is in need of threshold plate, extended kick plate and attention to the wooden door frame where as I suggest the wrapping. All the animals on the premises appear happy, healthy and injury free. The staff here has expressed an eagerness and willingness to complete these issues for all concerned. Mainly the animals that are in their care. I will return in or around 45 days for follow up on all progress and at which time I expect to see a great improvement.
