Narrative Explanation, continued

.0203 Outdoor facilities / Surface impervious to moisture - the concrete outdoor exercise area - the wood privacy fence needs to have a moisture resistant sealer applied. Advise pressure washing first to removed all buildup of algae on the lower portion of the fence.

Comments:

The dog and cat enclosures were noted to be clean and in good repair.

Temperatures were in range in all indoor areas.

This facility does not allow commingling of dogs unless it is from the same household.

Records were randomly examined and found acceptable.

I was advised that cats are allowed exercise time in the cat room. The lower portion of the walls are FRP board. There were no signs the cats were leaving scratch marks on the doors or window moldings. At this time all areas are well sealed, clean and in good repair. Advised manager if damage signs are noted the facility will be either required to stop allowing cats free time or require FRP board be installed and the molding replaced with plastic material.

Advised manager that cat trees and other carpet covered items that cannot be cleaned and sanitized are not acceptable.

It was noted the front exercise yard has a good carpet of grass. Advised by manager that dogs are always hand walked in this area.

Follow-up inspection in 30 calendar days - 11/4/13
