Narrative Explanation, if needed

Annual inspection done today. Owner Cora Tyson is in attendance.

The facility upon entry is odor free. Animals on the premises appear happy and healthy. Paperwork is in compliance. Due to the age of this building,there are some structual concerns that will need to be addressed. They are as follows.

1. Grooming / Bathing Area. > The tub and it's surround are in need of repair or replacement as it is separating from the wall and poses a threat of injury should it become completely off the bracing.

Narrative Explanation, continued

2. The ceiling throughout the front office and grooming space has several areas in which it is sagging and falling.

3. Grooming tables have exposed broken wood and rubber overlay tops that will require repair/replace.

4. Inside Kennel/ Cages. > Although these cages have had some previous work done to them they remain with incomplete rusted doors. These will require immediate attention since they have been an issue for some time now. I have been informed that they are looking into acquiring stainless steel cages for this section. I have encouraged this for several animal health related reasons. A new floor needs to be installed here as well.

5. The Outside Kennels. > All of the dog runs have been pressure washed, repainted and resealed. I have been shown a current list of posts and kennel fencing that they are beginning to repair, repaint and reseal due to rust. The concrete walkway and primary enclosure floors have been resealed. All water buckets have ben replaced with new metal ones. The yard remains with good established grass. Trees in this yard continue to be surrounded with a circle of fencing to deny canine access.

All in all I find the owner to be on top of these concerns and necessary corrections/improvements to be in effect. Animals here in her care are well taken care of. I am encouraging her to continue with the required changes and needed maintenance and housekeeping. I will return in or around 45 days to check on the progress and wish to at such time prefer to see an adequate change being made.
