0303 Food & water during transport	Not Applicable		0304 Observation of animals	Not Applicable

Narrative Explanation, if needed

.0201 Food protection - an open bag of dry cat food and open boxes of dog treats were noted today. Store all opened bags of dry cat/dog food and treats in containers with lids to prevent rodent/insect infestation and preserve freshness.

.0202 Indoor area - cat room - the damaged/scratched door molding has not been fixed since the last inspection. Replace this damaged door molding with a non wood material and cover walls in either FRP board or a material that is impervious to moisture and cats cannot damage. Cat cages should be positioned far enough away from

Narrative Explanation, continued

the walls that cats cannot reach the walls to damage them. If this is not possible, then a product such as FRP board must be installed. Small dog suite - replace the damaged door molding as in the cat room - non wood material and install material such as FRP on walls if dogs are allowed to be housed out of an enclosure in this room.

Orange section - 3rd kennel on left - replace the rusted, broken pole on the bottom of the gate.

Blue section - both kennel gates - replace the bottom poles (broken, rusted) on both gates.

.0102 Records - Signature Log for doggie day care - create a sign in / sign out log for the doggie day care clients making sure the persons to whom the animal may be released to is recorded.

Comments: Owner needs to start working toward repainting the concrete kennel floors - some peeling is noticed.

Remember to make sure proof of current Rabies vaccination is available on each boarding animal.

Follow-up inspection on April 26, 2012. All disapproved items must be addressed by this date.
