Inspection Results	Date of inspection
Approved	May 12, 2014

Pitt County Animal Shelter	Pitt County Goverment	Greenville	NC

Narrative Explanation

Follow up inspection from 4/11/14.

Items Corrected:

1. Veterinary Care When Needed - Reference the 3 year old Brown & White female Pitt Bull in pen #11- As requested the shelter manager e mailed a copy of the veterinary report to me stating that Dr. Sarah E.McCain, DVM, had seen this dog and prescribed antibiotics for this dogs' bite wounds. The report also stated the veterinarian had done a follow up 2 days later. This report was signed by Dr. McCain. Continue this protocol with all ill or injured dogs and cats in the shelter.

2. Food Storage - Dry food and treats were found stored correctly today - in a container with a lid on it.

3. Primary Enclosures / Sound Repair - The chain link has been made secure on the bottom of all the previously identified gates.

New Item to be Corrected:

.0203 Outdoor Facilities / Impervious Surfaces - Grass play yard - Areas of bare dirt at both gates - There should not be any bare dirt within the play yard - Gate areas are "target areas" and hard to maintain a good carpet of grass. Options to correct this problem include adding more gravel, pouring a concrete pad or installing concrete pavers in these areas. The shelter may chose the option but to pass inspection in this area there cannot be any bare dirt.

Gravel exercise yard - All the grass / weeds that are growing up through the gravel must be removed. There cannot be any grass growing in the gravel yard. The concrete pad in this yard needs either to be partitioned off so dogs do not have access to it or clean off the peeling paint and re seal it. All concrete in a primary enclosure must be sealed.

Comments:

Temperatures were checked throughout the indoor areas. They ranged from 72.0*F - 80.0*F. Continued.....

Inspection Results	Date of inspection
Approved	May 12, 2014

Pitt County Animal Shelter	Pitt County Goverment	Greenville	NC

Narrative Explanation

Reminded manager that the temperature range for indoor facilities is 50*F-85*F. Advise keeping the sally port door closed unless there is a need for it to be open especially in the hot time of day plus to conserve on air conditioning.

Follow-up inspection in 30 calendar days - 6/12/14.

☐ check here if a euthanasia inspection form is attached
