Narrative Explanation

I performed an annual inspection at this facility today.

I was assisted with the inspection by M. Whaley, shelter director and Josh, staff member.

I arrived at 9:00 AM and departed at 11:45 AM.

I was advised by M. Whaley that the animal enclosures are cleaned a minimum of 2 X @ day including weekends.

I noted the following items need to be corrected:

1) .0204 Primary Enclosures / Sound Repair - I noted the following enclosures need the chain link on the gate made secure. I explained that the wire is loose and needs to be wrapped with wire that does not easily break. #'s 18, 11, 9, 20, 7, 25, X, O , Q. The outdoor grass yard has 6 polls that the wire wraps need to be replaced to the fence is secure at the bottom.

2) Primary Enclosures / Resting Surfaces - I noted the krunda beds in #'s CC, DD, I, J, AA have either torn covers or the corners are chewed and need replacing.

Comments:

I noted on 2 inspections now that the director and I have discussed the rubber coated grates in the feral cat room. The grates are showing wear but at this time there are no noted loose pieces of rubber that a cat could ingest. I am recommending the director continue to look for a product to re coat these grates as it will be inevitable that they will eventually need to either be re coated or replaced.

I noted as the inspection began that cleaning was on going over the shelter. The temperature was in range in all indoor areas. The director advised that there are some small areas on the new building kennel walls that the paint is peeling.

Remember to keep the grass out of the gravel exercise yard. I noted 1 roach in the shelter and was advised by Josh, staff member that a pesticide company treats the shelter every 3 months. I only saw the 1 roach and no other signs of pests. Continued on page 5.....

Pitt County Animal Shelter	Pitt County Goverment	Greenville	NC

Narrative Explanation

Continued from page 4.....

This facility has 30 calendar days to correct the identified items. I will return at some point in time after the 30 calendar day period for a re inspection of this facility.
