Pitt County Animal Shelter	Pitt County Goverment	Greenville	NC

Narrative Explanation

I performed a Follow up Inspection at this facility today.

I noted the following items have been corrected:

1. .0301 Vehicles / Fresh Air & Ventilation - Fans have been installed on the transport units of truck #'s AC # 1 & 2. Noted that all 5 transport units at this shelter now have fans on the transport units.

2. . 0203 Outdoor Facilities / Surface Impervious to Moisture - Play yards - Gravel has been added to the gravel play yard. It is now at an acceptable depth.

3. .0201 Facilities / Wash Basin & Sink - The animal food bowl cleaning / animal washing raised stainless steel tub has been caulked but still has a leak. It is improved but not fixed.

Items to Correct:

1. .0203 Outdoor Facilities / Surface Impervious to Moisture - The grass play yard - I noted there are holes dug next to the back of the building that need to be filled and pavers installed to prevent future digging. I noted also the area under the picnic table / shelter area that the grass is thin and there has been some digging. The shelter director advised they plan to install pavers from the back side of the building to under and around the shelter. This would take care of the bare dirt / no grass areas.

2. .0201 Facilities / Wash Basin & Sink - I noted that since the raised stainless steel tub used for cleaning animal food bowls and washing animals is still leaking, that it would be best to replace this item. The shelter has tried to fix the leak but has not been successful. This tub should be replaced.

Comments: Since the last inspection I noted much improvement in keeping the medical log. The director advised there will be a door installed in the old section to separate the last 6 kennels for k-9 quarantine. I noted the new cat cages are now being used to house the feral cats.

Follow-up inspection in 30 calendar days (10/8/15).

☐ check here if a euthanasia inspection form is attached
