Item Number	Explanation of Inadequacy (circled items above) And Recommendation For Compliance	Date Corrections Must Be Completed
	Follow-up from 2-11-08 - Comments: All inadequacies from 2-11-08 inspection have been corrected. The outdoor exercise yard now is in compliance - gravel with a block border has been installed and old heat/air unit has been removed from yard. All work looks very good!	
	The hallway rooms are not being used to house any cats or dogs today. Remember if used, to contain animals, keep away from wood and non-scrubable surfaces.	
	Discussed storing bags of food off the floor and keeping building in good repair - door frame moldings, wall paper, etc. - painted areas.	
	The cracks in the concrete have been sealed and look much better - need to keep working on this as new cracks appear.	
	Remember to continue to do "wire patrol" - keep all chain link in good repair.	
	Also, outdoor exercise yard - water and keep holes filled and keep enough gravel on hand to keep yard replenished as it gets "thin".	
	Dogs and cats look good, temperature is within range.	
	Good Job!
