Narrative Explanation

Throughout facility husbandry is good overall. Cat cages are clean and have ample supply of food and water. No signs of illness or injury in general population. (0202) All floors throughout facility are ripping/coming up. I have suggested pulling tile up and clear sealing concrete. (0203) Continue to sand down edges on dog houses in outside area or replace as needed when damaged/chewed on causing sharp edges. (0204) Black metal enclosures/crates need to be sanded down and repainted as needed due to rusting. This has been done to some of them since last inspection but they were not sanded down completely so paint has chipped off. (0204) Dogs must be supervised if more than 4 in play area at all times. (0202) Walls in the hallway and throughout have begun to deteriorate due to the moisture coming up through the floors also causing plastic baseboards to come off. New FRP boards need to be put up throughout where damaged walls are.

Rabies vaccinations are missing/past due for the following:
Cats - Callie, Dozer, Hope, Oscar, Momba, Molly, Mama Cass, Bailey, Mindy and Joy
Dogs - Bella, Mister, Gracie, Noah and Moses

Ensure that paperwork is kept current and organized. Rabies vaccinations must be administered to the above cats listed within the next week. The 5 puppies will be going to spay/neuter clinic and will be vaccinated at that time. Once vaccinated I have instructed Sue to email me with the vaccination information.

I have requested a time line from Sue as to when the floors and walls can be repaired. I have asked that she emails this to me within a week.
