Narrative Explanation, if needed

Random inspection performed today. New outside kennels are complete. Shelters have been put in over dog houses. All wooden posts inside enclosures have been covered with metal fascia. Bare dirt areas have been filled in. Tile floor has been added in the barn/isolation area. Plans are to insulate the building and put up walls to cover the old wood on the side where dogs are crated in the barn. Inadequacies include (0203) repair vinyl siding on house in puppy enclosure where dogs have chewed and pulled away from door frame. (0101) Each animal that is taken in must have complete paperwork that consists of origination, description of animal, rabies vaccination records and disposition once animal leaves the facility. (0206) replace chewed plastic water receptacles as needed. Will follow up on paperwork in 60-90 days.
