Item Number	Explanation of Inadequacy (circled items above) And Recommendation For Compliance	Date Corrections Must Be Completed
	Joe and myself had to come back for a reinspection on this facility. They are in process of creating cross contaminating barriers. They are forming up a wall of cement and putting a section of shower board about that. They was in process of cleaning while here. They have gotten food off of the floor good job. They are now getting cities & communities on intake sheets. They have decided to treat this facility as a indoor facility. This will allow no dog houses to be added. Great job on working on these improvements	
	Time line 60 days to come back and take a look at what you have done on cross contamination issues.	
	Still need cat resting surfaces	
	Still need to work on issues to get approved
