## Narrative Explanation, if needed

Euthanasia by injection was performed on 2 kittens and dogs. All animals were handled humanely and with little to no stress to the animals. Euthanasia room was very well organized. Scales are present and were used on every animal that was euthanized. Logbooks were recorded accurately after each animal. Records were intact. Policy and Procedure manual was complete except for "Contact info for Suppliers". Manager will have in the book by the end of business day. Overall all animals were treated very humanely and euthanasia was done with compassion and patience.
