Narrative Explanation, if needed

Follow up inspection from disapproved inspection on 9-29-14. At previous inspection the main concern was the lack of husbandry. At that time the play room floor had not been cleaned completely in a week and the futon was urine soaked.

The following inadequacies have been addressed: (0201) all trash has been cleaned up in the office, play room area and outside in play yard, floors have been cleaned with no urine or feces present, tub area was clean, and futon bed has been removed. The FRP walls are cleaner but still could use a deep cleaning.

Narrative Explanation, continued

The following inadequacies still need to be addressed: (0102) sign in/sign out sheet needs to be implemented, (0103) vaccination records for dog (not here last inspection) were not current on site (vet was contacted and will email to Mitchell), (0202) floors are still in need of repair as they are chipping throughout, (0204) crates need to be repainted and must have a bottom to them. I have reiterated that for a dog to board it must have current vaccination records at the facility. I suggested that he ensures records are current when client makes appointment for the dog.

I have asked for Mitchell to email me a time line within 24 hours as to when the crates will be replaced/repaired and when the floors will be complete. I will work with him to give time needed to do this as long as he continues to clean and sanitize the facility according to the Animal Welfare Act. I will follow up within 30 days to ensure that this is being done. If facility is not maintained and records are not intact it will result in a third disapproved inspection. At that time a Cease and Desist order may be issued. If facility is clean and he is moving forward with time line given for floors and crates Approved inspection may be given.
