Narrative Explanation, if needed

Annual inspection performed. I arrived at 10:15 am and no one was available. I looked through the large windows on the front of the building and could see 3 large dogs. There were 4 small bowls but they appeared empty. There was standing urine on the floors and the floors and walls appeared to be very dirty. I took photos through the window.

I returned after 11:00 am and found Mitchell filling holes in the play yard with dirt that the dogs had dug last week at the fence lines. I informed him that the dirt holes would need to be reseeded or covered with gravel.

Narrative Explanation, continued

He then stated he did not have the keys with him and he would have to walk home to get them. Once he returned with the keys we entered the facility. The following inadequacies were found at the time of inspection:

1. (0201, 0210) He stated that he didn't have anyone boarding and that only his 2 dogs and 1 dog for a bath was there. The Corgi mix was running loose in the play area with his two dogs. I asked for his rabies information but he could not provide me with any records for the dog. 52J .0201 GENERAL reads as follows: (k) All animals in a facility are subject to the requirements of the Animal Welfare Act, regardless of ownership.

2. (0202, 0207) There was a broom leaning on the far wall with a large amount of old feces behind it. The feces appeared to have been there for a long time as there were some pieces that were white. The animals do have access to this area. This issue was discussed on previous inspection on 9/29/14. 52J .0201 GENERAL reads as follows: "(e) Provisions shall be made for the daily removal and disposal of animal and food waste, bedding and debris from the housing facility in accordance with local ordinances, to assure facility will be maintained in a clean and sanitary manner". NCAC 52J .0207 SANITATION reads as follows: "(a) Waste shall be removed from primary enclosures and exercise areas to prevent contamination of the dogs or cats contained therein and to reduce disease hazards and odors. Enclosures and exercise areas for dogs and cats must be properly cleaned a minimum of two times per day".

3. (0206) There was no water available for the dogs. There were 4 small bowls in the play area but they were all empty. NCAC 52J .0206 WATERING read as follows: "Animals shall have continuous access to fresh water, except as might otherwise be required to provide adequate veterinary care".

4. (0209) Being that there was no records/paperwork for the Corgi mix the facility does not have written permission for the dog to commingle. 52J .0209 CLASSIFICATION AND SEPARATION reads: "(2) In boarding kennels, animals of different owners shall not have contact with other animals, unless written permission is obtained from the animal's owner. Any dog or cat exhibiting an aggressive disposition shall be housed individually in a primary enclosure".

5. (0207) The entire floor in the play area was very dirty. There was standing urine over a large portion of the center of the room. There was scattered dirt and debris throughout. Walls need to be cleaned and sanitized as well. 52J .0207 SANITATION reads: "(6) Any area accessible to multiple animals shall be kept clean and sanitary".

Overall the facility was again very dirty and unsanitary. I will follow up after 15 days to ensure that sanitation has improved and that the records are maintained on the dogs boarding/staying for day care/commingling with owner's dogs.
