	The entrance way to building is wood but if you take the dogs in by hand no need to cover walls. The outside if you add 6 inches of rock cover tops of cages with wire & add a perimeter fence and get rid of or cover all exposed wood that will work. Need shade for animals one dog house per dog	
	They are going to remove all dogs outside today till they figure out what to do with outside runs. 3 dogs in road also being removed now. We need to work on fly problem in the main building severe problem they have the staff to use to work this issue	
	Time line 30 days to get started they have no money (be back September 14, 2008 to see what you have done) and they get to get some help to continue with this place	
	see permit II included with this paper work	
	We went over treatment sheet and the need for originating paper work on each animal here I have included Dog health record cat health record adoption agreement, surrender agreement.	
	I reviewed some records filled out they seem to be fine	
	They didn't know they had to have a Lic they have been doing this 13 years	
	I gave them a copy of rules & regs, my cell call me any time with any questions. 919-740-8619
