Item Number	Explanation of Inadequacy (circled items above) And Recommendation For Compliance	Date Corrections Must Be Completed
	Today's inspection is a follow-up from 8-9-07.	
	Comments on past inadequacies:	
	16) Hot water is now avalable to clean and sanitize Kennel area. Disel-powered pressure washer.	
	Euthanasia records are now avalable for inspection.	
	7) Resting platforms for dog Kennels are on order - should be here within the next 30 days.	
	Resting platforms ARE in place for cats.	
	Cross Contamination barriers for dog Kennels are on order also - should be installed within next 30 days.	
	Today the Outdoor Drop Box was discussed with Tim Bass, Susan Holder and Dr. Hope Lucas. I reviewed the requirements for such and made clear that NCDA - Animal Welfare Section is not in favor of drop boxes because of the likelyhood there would be injured animals from comingling strange animals.	
	Today at 11:00 Am the cat room did not appear to have been cleaned. More attention to detail cleaning is needed - mothers + puppies - Crates they bed in should have more attention to cleaning.	
	Kennel personnel appear to need more supervision in cleaning and record keeping.	
	Will Re-Inspect in 30 days or sooner if resting platforms and cross contamination barriers are installed.
