Narrative Explanation, continued

It was noted there were cats in quarantine on medications, a dog in quarantine was on medications after having surgery on it's neck. Proper procedures are being followed as to providing veterinary care.

Records were randomly examined. Make sure the complete contact information is recorded on each animal's disposition record.

There are carpet squares being used as resting surfaces in the feral cat room. Cloth products used as resting surfaces must be mechanically washed with detergent and sanitized - 02 NCAC 52J .0207 Sanitation (b) (6) - it was observed today that many of the cats preferred lying in the litter pans verses on the carpet. Discussed with the Director that they discontinue use of the carpet and provide an empty litter pan, a folded towel or folded newspaper for resting surfaces for these cats.

The Director discussed creating a separate puppy room in the shelter office room. Advised installing FRP board on the walls. There is existing heat / ac in this room. Stainless steel cages would be used in this room.
