

Steve Troxler
Commissioner

North Carolina Department of Agriculture
and Consumer Services
Division of Soil and Water Conservation

Patricia K. Harris
Director

THE NORTH CAROLINA AGRICULTURAL WATER RESOURCES ASSISTANCE PROGRAM
AgWRAP Review Committee

Wednesday, October 16, 2012: 9:30am-12:00pm
NCDA&CS Agronomic Lab Conference Room
4300 Reedy Creek Road, Raleigh
<https://agr.ncgovconnect.com/arc>
(919)420-1375

- I. Welcome and introductions
- II. Minutes from February 2013 meeting
- III. Review AgWRAP PY2014 Detailed Implementation Plan
 - a. Timeline for application process
 - b. Online application form(s)
 1. Separate applications per region?
 2. Separate applications per BMP type?
 - c. Project ranking – parameters for prioritizing BMPs
 1. Agricultural water supply/reuse pond
 2. Pond repair/retrofit
 3. Pond sediment removal
 4. *Stream water pick-up (discuss after next item on agenda)*
 5. Conservation irrigation conversion (TVA only)
 6. Micro-irrigation (TVA only)
- IV. Stream water pick-up BMP
 - a. Consider this BMP as a standalone practice
 - b. Consider this BMP as a facilitating practice(s) with new ponds and pond repair/retrofits.
 1. Should there be a limit on the number of these BMPs associated with a pond?
 2. Will the pick-up(s) fall under the pond policy: *The pond shall be for agricultural use and includes **all associated components** to meet the intent of the design.*
 - c. Cost share eligible components
 - d. Project ranking – parameters for prioritizing BMP applications
- V. Micro-irrigation system BMP policy review
Confirm that the intent is to improve efficiency, not assist cooperators in being able to irrigate
- VI. Review draft AgWRAP rules
