Sampson County Animal Contro	Sampson County Goverment	Clinton	NC

Narrative Explanation

I performed an annual inspection at this facility today.

I noted the following items need to be corrected:

1. .0202 Indoor Facilities / Lighting - I noted one set of florescent lights in the surgery / euthanasia room are not burning. Fix this light unit so it is in proper working order.

2. .0204 Primary Enclosures / Impervious to Moisture - I noted from the last inspection (4/24/15) that the concrete floors in the k-9 general population area have peeling paint. The shelter director advised that property management (Sampson County) is to provide a purchase order within the next 30 days to have these floors addressed. I advised the director that the floors do not have to be painted but they must be sealed - impervious to moisture.

3. .0204 Primary Enclosures / Sound Repair - I noted the following k-9 kennels need repairs :

Q 4 - The gate pole is broken and the hole in the chain link needs to be fixed.

The following are all in k-9 general population:

Left side outside row: 1,5,6,7,12,13,14

Left side inside row: 2,10, 11

Right side outside row: 4,5,7,9,11,15

Right side inside row: 5,8,9,10, 14

All of the above identified kennels have rusted poles that need to be replaced or repaired.

4. ..0301 Vehicles / Cargo Area Clean - I noted the animal enclosure area in the shelter transport van is dirty. This area needs to be cleaned between each shipment. The crates are also required to be cleaned between uses.

5. GS 19-A .1 (h) I noted in the intake records the ACO's are not consistently filling in the bite within 10 days question. This section needs to be filled for each animal.

continued on next page 5.....

Inspection Results	Date of inspection
Disapproved	Oct 28, 2015

Sampson County Animal Contro	Sampson County Goverment	Clinton	NC

Narrative Explanation

continued from page 4:

Comments:

I noted the overall sanitation of the kennels was good. I noted the lighting could be improved in the k-9 kennel rooms by replacing the single bulbs with florescent lighting. I noted there is florescent lighting over the drain but not over the kennels. To replace the single bulbs with florescent lights in this area would be noted as a shelter improvement.

I discussed long term care with the shelter manager. I suggested a form be created to document the exercise / enrichment time given each animal that has been housed 30 days in the shelter.

I reminded the shelter manager that the all the freezers should be kept in a clean manner.

A follow up inspection will take place in 30 calendar days for items 1, 4 & 5. At that inspection I am requiring a written time from the county for fixing the floors and rusted kennels.

☐ check here if a euthanasia inspection form is attached
