Narrative Explanation

At the time of inspection facility is clean and organized.

Inadequacies noted include;

(0202, 0204)

1) Floors throughout indoor enclosure area are beginning to chip/peel. Touch-up painting may be appropriate at this time. Repaint/Reseal damaged floors.

(0207)

1) Noted a few damaged beds in the indoor enclosure area. Repair/Replace damaged beds.

2) Noted hole in the frame for the gate leading to the outdoor enclosure area. Hair/Debris is beginning to accumulate in this area and the area is sharp posing a risk for injury. I suggested covering this area with metal kick plate to prevent this hole from re-forming each time the gate hits the frame. Repair damaged frame.

Food is appropriately stored. Records are in order for all animals requested. Temperature is ambient. Ventilation is well achieved. All animals appeared healthy with no clinical signs of illness noted in the general population.
