## Summary

**What is the #1 reason your district is having trouble encumbering/expending CCAP allocations?**

Focused on spending grant funds first	1	1%
Lack of job approval authority	0	0%
Lack of engineering assistance	2	3%
Not enough funds to complete the project	36	49%
Lack of interest from the public	13	18%
Lack of district staff	4	5%
Other	17	23%

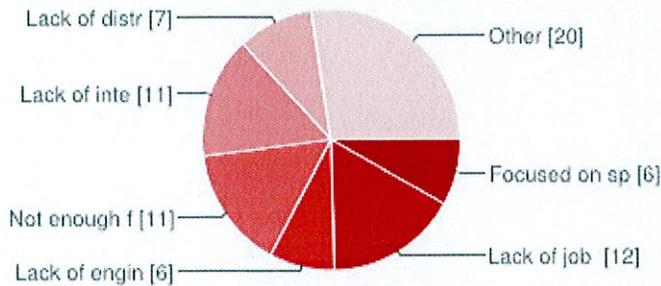

**What is the #2 reason your district is having trouble encumbering/expending CCAP allocations?**

Focused on spending grant funds first	5	7%
---------------------------------------	---	----

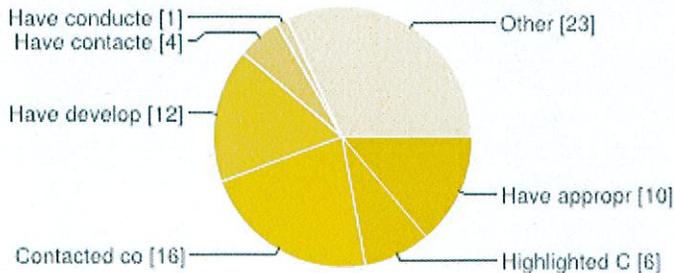

Lack of job approval authority	10	14%
Lack of engineering assistance	11	15%
Not enough funds to complete the project	18	25%
Lack of interest from the public	13	18%
Lack of district staff	3	4%
Other	13	18%

**What is the #3 reason your district is having trouble encumbering/expending CCAP allocations?**

Focused on spending grant funds first	6	8%
Lack of job approval authority	12	16%
Lack of engineering assistance	6	8%
Not enough funds to complete the project	11	15%
Lack of interest from the public	11	15%
Lack of district staff	7	10%
Other	20	27%

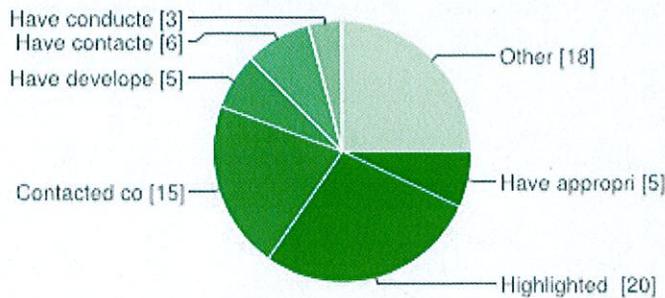

**What is the #1 reason your district has been successful in encumbering/expending CCAP funds?**

Have appropriate JAA for CCAP practices	10	14%
Highlighted CCAP at public events	6	8%

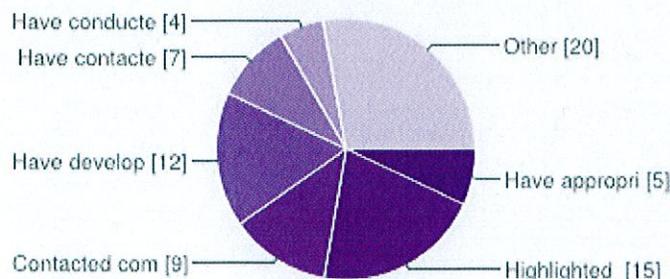

Contacted community groups about CCAP (gardening, Rotary, and/or similar groups)	16	22%
Have developed contacts with local schools	12	17%
Have contacted local homeowners associations about CCAP	4	6%
Have conducted CCAP outreach by direct mail (using county GIS or other source)	1	1%
Other	23	32%

**What is the #2 reason your district has been successful in encumbering/expending CCAP funds?**

Have appropriate JAA for CCAP practices	5	7%
Highlighted CCAP at public events	20	28%
Contacted community groups about CCAP (gardening, Rotary, and/or similar groups)	15	21%
Have developed contacts with local schools	5	7%
Have contacted local homeowners associations about CCAP	6	8%
Have conducted CCAP outreach by direct mail (using county GIS or other source)	3	4%
Other	18	25%

**What is the #3 reason your district has been successful in encumbering/expending CCAP funds?**

Have appropriate JAA for CCAP practices	5	7%
Highlighted CCAP at public events	15	21%
Contacted community groups about CCAP (gardening, Rotary, and/or similar groups)	9	13%

Have developed contacts with local schools	12	17%
Have contacted local homeowners associations about CCAP	7	10%
Have conducted CCAP outreach by direct mail (using county GIS or other source)	4	6%
Other	20	28%

**What new BMPs should be added to CCAP?**

Cost sharing native plants for riparian buffers and pollinator corridors/gardens Stream restoration if sufficient funds were available. None that I am aware of not sure-anything for the Mtn. Region would open doors NA Preserving Stream Corridors with Easements Pay for what engineer recommends/Rock rip rap CCAP should be taylored to account for water conservation/quantity/storage and not just water quality. septic system repairs Don't have any suggestions. Old Fuel Tank Removals at a Home. bio-retention basins Microirrigation conversion gutters and downspouts rock lined outlets I'm not sure at this time. fertilizer, herbicide, pesticide reduction shoreline stablization: marsh sill, marsh toe, etc More money Grade stabilization I think it is about right until we get more funds in the Program, To many choices and not enough funds does not go any where stormwater diversions for driveways Waterways, Field borders, Cropland conversion, just common sense BMP's.....Not a flower garden in someones back yard unsure still like cisterns for rain barrels- for rain gardens or for storgae for irrigation needs. Not sure
