P.A.W.S Placing Animals Within S	P.A.W.S.	Bryson City	NC

Narrative Explanation

Performed annual inspection. At the time of inspection the paperwork was in order, veterinary records were in order, and there appeared to be no sign of illness in the general population.

Inadequacies noted are block walls and holes in block walls in the cat rooms needs to be sealed to make impervious to moisture (202,204) Metal used to cover wood in outside of the cat enclosure has become damaged and needs to be replaced/repaired (203,204) Damaged cat accessories needs to be removed since they can no longer be properly sanitized (202,203,204) Seal floors inside and outside of cat enclosures (202,203,204) Add gravel to outside enclosures to ensure a 6 inch minimum depth (203,204) Ensure that cat accessories and walls in the cat room are properly cleaned and sanitized (207)

As noted in last inspection the floors in the lobby and free roaming cat areas need to be repainted/resealed to make impervious to moisture. Kennel decks need to be replaced/removed due to damage.

The facility was in operation before AWA was enacted and is grand fathered in. Currently most of the wood is in good repair but will need to be covered/replaced with a material impervious to moisture in the near future.

Will inspect the facility in 90 days.
