Narrative Explanation

I performed an annual inspection today. The facility was clean and the animals housed appeared healthy. This facility is an older facility. The temperature inside the dog kennels was 85* at 11:45am. The facility utilizes a covered metal carport to house the feral cats. The cages utilized contain hide boxes for the cats and kittens. These boxes act as a dog houses for the cats and kittens can lay in. There are food bowls and water bowls in each kennel. The storage building utilized is a 3 sided metal carport. The front part of this metal carport is open for employees to have access to the cats. At this present time there is a large commercial fan running at all times. This area would be considered an outdoor enclosure.

The records on animals housed are within compliance.

I took pictures of the feral cat storage building.

The county hopes to be in the new facility by September 1st 2016 .
